

## **Lesson #8 U.S. History Why They Came First**

### **Spanish came for God, Gold, and Glory**

**They found gold and always brought two priest with them. Spanish men came looking for wealth in gold and silver. They brought guns and shovels. They force or offered goods to bring Natives into their forts and work. Pigs, cows and wheat provided new food sources to the indigenous people. They married native women and then left their wives and children when he went home. The natives were expected to learn European culture and were treated poorly. Natives hated the Spanish.**

**1680 Pueblo Revolt – ripping effect on culture - Natives gained control of horse – had been forbidden before - 1/3 to 1/4 Spaniards killed the rest driven out of North America**

**Ute = named after horse flesh**

**Native hated Spanish and found against them unless they hated natives on other side more**

**The indigenous People after 1492 became a blend of European culture with food, animals, iron and guns.**

**Navaho – jewelry, weaving, and heading sheep (European influence)**

**By 1680's Sioux pushed out of Minnesota by Chippewa who were pushed west by others. Who were pushed by colonist on the east coast.**

### **France came for God, Gold and Glory**

**They found furs that were as good as gold. They at first came for the natural resources and started with a plantation system. Over time they turned to fur trade. The fur companies did not establish roots, technology or industry. The fur men lived with natives and learned their language and taught the natives French. They married and stayed with native women in America.**

**Natives loved the French and always fought on their side unless they did not like other natives on French side.**

### **English came for God, Gold and Glory**

**1585 English failed at Roanoke Island failed**

### **Jamestown facts - Chesapeake**

**April 26, 1607 ship arrived with 105 settlers from London Company (stock at \$16 - 18 weeks of labor – 16 died in crossing – 50% survived 1<sup>st</sup> year)**
